

Get Growing Wonderfully

Learn how to make your gardening dream come true!

This 30-minute session will be an introduction into how to get a gardening project planned and underway. We are hoping to make this a regular talk so that we can help you with your project as you progress.

It will be very hands on - be prepared to get your hands dirty or help others to learn - we will have several tables for people to come and have a go with sowing and potting.

This first talk will cover the basics - what you need to do to get going?

- A Plan - how to make a realistic plan
- Growing - what you need to grow good, strong plants
- Expectations - tips to make sure you succeed
- Snacks to keep us strong
- Demos and hands on experience for all to practice
- Plant Sale - to get you going with some sunflowers, herbs and more...

Competition

We are having a competition for a composting poster - We will launch it on the night and there will be a bag of compost for the winners - there will be a child/adult version:

- We will cover all the compost basics on the night
- We will ask permission of all the entrants, to display the posters and use them for publicity for future get growing wonderfully talks!

Finally - this is open to all gardeners - both new and old hands

We really hope to see you there for this short session - there will be some refreshments and a plant sale to raise money for future growing projects! Please feel free to bring along plants for the sale if you wish.
